★ Optimistic About Our Future ★

EDUCATION - A PRIORITY WE MUST NOT FORGET

Education is the key to our economic future and job creation. Every person in our state is positively impacted by the benefits of an educated workforce. I have seen firsthand the difference that education has made in the lives of my family members. Excellent educational opportunities are essential in building strong individuals, strong families and strong communities. Studies have shown that education reduces crime, increases incomes and provides for a more stable economy. I will continue to be a strong supporter of Education.

From the desk of

Frank Pratt

I am optimistic and determined that Arizona will emerge stronger than ever before when these difficult times are behind us. I fully understand that you want value from your elected officials. Many will talk about what they will do, I point to my record.

I work hard to seek solutions with real world perspectives drawn from my years of experience in agriculture and small business ownership. I look forward to remaining your representative and I will continue to use my principled leadership skills to expand Arizona's opportunities while protecting our future.

Sincerely,

ARIZONA
